

## Group 7

Pannkoke Flachglastechnik GmbH is a company specialising in manufacturing systems engineering for equipment, machines and tools in the glass processing industry. Our medium-sized engineering company was founded in 1900.

Our customers who have been implementing our products for decades, are our main criterion for the quality of our products.

**Please ask for information on our extensive production and delivery programme.**

Machines for cutting flat glass

- from manual to CNC-Machine

Vacuum lifting and holding technology

- for lifting, holding and transporting concrete, glass, plastics, metal, stone or lead blocks at temperatures of up to 200° C
- vacuum transporting equipment for roof and wall panels used in industrial construction

Tools

- suction devices, tools and devices for processing and handling flat glass  
This group comprises:

Glass cutter	Circle cutting device
Glass-cutting equipment	Suction circle cutter
Measuring devices	Circle and oval cutting machine
Cutting wheel	Oil glass cutter
Cutting slide	TC cutting wheel
Strip cutter	Quick-changing holder
Parallel cutting frame	Plastic wheel holder
Plastic glazier's square	Cutting emulsion
Cutting and break-out bar	Glass thickness gauge
Profile glass cutting angle	Glass O-meter
Round-edged template	Spring tape measure
Radius cutter	Marking tool
Ruler stop	Marking chalk
Spring clamp	Etching ink
Circle cutting machine

	Item-No.	Description
		<b>Cutting Slide Pannkoke</b> for exact cutting of small rectangles with 3 slides
	138-30	30 cm long
	138-40	40 cm long
	138-50	50 cm long
	138-60	60 cm long
	139	<b>Spare slide</b> for cutting slide 138-xx
		<b>Strip Cutter</b> for parallel cutting of strips with one slide with rosette
	157-30	30 cm long
	157-60	60 cm long
	139-R	<b>Spare Slide</b> for strip cutter 157-xx
		<b>Parallel Cutting Frame</b> cutting frame with 2 stops adjustment of length and width at the same time, adjustable overmeasure, dismountable
	155-060	60 cm long
	155-080	80 cm long
	155-100	100 cm long

	Item-No.	Description
		<b>Plastic Glazier's Square</b> made of one piece, therefore always angular without brace
	205-030/17	30/17 cm
	205-050/25	50/25 cm
	205-060/30	60/30 cm
	205-080/30	80/35 cm
	205-105/35	105/35 cm
	205-135/45	135/45 cm
	205-150/45	150/45 cm
	205-175/50	175/50 cm
		<b>Plastic Glazier's Square</b> made of one piece, therefore always angular with brace
	205-ST060	60/30 cm
	205-ST080	80/35 cm
	205-ST105	105/35 cm
	205-ST135	135/45 cm
	205-ST150	150/45 cm
	205-ST175	175/45 cm
	205-ST205	205/60 cm
	205-ST250	250/60 cm
		<b>Cutting and Break-Out Bar</b> made of one piece plastic
	390-508	55 x 4 x 800 mm
	390-613	65 x 4 x 1300 mm
	390-815	80 x 5 x 1500 mm
	390-820	80 x 5 x 2000 mm
	390-825	80 x 5 x 2500 mm

	Item-No.	Description
		<b>Cutting and Break-Out Bar</b> made of one piece plastic with suction cup
	<b>390-815/S</b>	<b>80 x 5 x 1500 mm</b>
	<b>390-820/S</b>	<b>80 x 5 x 2000 mm</b>
	<b>390-825/S</b>	<b>80 x 5 x 2500 mm</b>
	<b>398-22/32</b>	<b>Profile Glas Cutting Angle</b> made of plastic from K22 to K32
	<b>398-ZP</b>	<b>Additional Plate for Profile Glas Cutting Angle</b> made of plastic to K50
	<b>224</b>	<b>Round-Edge Template</b> made of plastic for radii from 10 to 70 mm
		<b>Radius Cutter</b> made of plastic for cutting of round corners saves grinding time no slipping
	<b>225-klein</b>	2 – 9 cm
	<b>225-gross</b>	bis 16 cm

	Item-No.	Description
	394	<b>Ruler Stop</b> made of brass with suction cup also for figured glass
	393-F	<b>Spring Clamp</b> for firm tightening: – rulers on glass – sealed units with riveted fiber lining
	230-30	<b>Circle Cutting Machine</b> without plate with SILBERSCHNITT-rosette
	230-60	<b>Circle Cutting Machine</b>
	227	<b>Circle Cutter</b> for circles up to 9 cm Ø
	231	<b>Spare Slide</b> with MICRO-wheel for smaller circles
		<b>Circle Cutter</b> with lever and rosette with 6 wheels minimum circle is approx. 90 mm in diameter
	228-040	<b>40 cm Ø cutting</b>
	228-060	<b>60 cm Ø cutting</b>
	228-100	<b>100 cm Ø cutting</b>
	228-120	<b>120 cm Ø cutting</b>
	228-160	<b>160 cm Ø cutting</b>
	228-200	<b>200 cm Ø cutting</b>

	Item-No.	Description
	228-ES	<b>Spare Lever</b> for circle cutter 228-xx
	232-20/120	<b>Circle and Oval Cutting Machine</b> with glass cutter and drawing pencil 20 – 120 cm cutting range exchangeable, ball-bearing wheel holder
	232-VL	<b>Extension</b> for circle and oval cutting machine 232-20/120 up to approx. 182 cm
	232-ESK	<b>Spare Wheel Holder</b> for circle and oval cutting machine 232-20/120
	233-10/40	<b>Circle &amp; Oval Cutter</b> 10 – 40 cm cutting range exchangeable, ball-bearing wheel holder
	52-425	Spare Glass Cutter
	52-Rad-Trg	Spare Wheel Holder
		<b>Cutting and Break-Out Bar</b> Alu-ruler 100 mm wide till 6,80 m made of one piece nonskid, also for figured glass no scratches on the glass
	389-oM/lfm	without scale
	389-eM/lfm	mm scale one-side
	389-dM/lfm	mm scale double sided

	Item-No.	Description
	52-424	<b>Glass Cutter HOBBY LONGLIFE</b> length adjustable individually with replaceable wheel holder
	52-Rad-Trg	<b>Spare Wheel Holder</b> with one tungsten carbide wheel, 4 mm Ø for glass cutter HOBBY LONGLIFE 52-424
	61-100	<b>Glass Cutter</b> standard quality with 6 steel wheels made of high-alloy steel nickel head red-brown wooden haft
	60-102	<b>Spare Wheels</b> for glass cutter 61-100
	63-101	<b>Spare Rosette</b> with 6 steel wheels for glass cutter 61-100

	Item-No.	Description
	64-400	<b>HM Glass Cutter</b> with one tungsten-carbide cutting wheel especially suitable for cutting at the ruler
	64-401	<b>Spare Rosette</b> with one tungsten-carbide cutting wheel for glass cutter 64-400
	265-2.135	<b>Spare Wheels</b> tungsten-carbide cutting wheel 135°
	61-2004	<b>MICRO-Glass Cutter</b> plastic haft with pointed head universal glass cutter for glass thicknesses of 2 – 12 mm 1 micro cutting wheel wheel not replaceable
	259-447.8	<b>Oil-Glass Cutter</b> narrow replaceable, movable cutting head with micro wheel cutting angle 135 ° especially suitable for manual contour cut and for profile glass

	Item-No.	Description
	259-447.1	<b>Spare Cutting Head</b> for oil glass cutter 259-447.8
	261-448.8	<b>Oil-Glass Cutter</b> wide replaceable, movable cutting head with micro wheel cutting angle 135 °
	261-448.1	<b>Spare Cutting Head</b> for oil glass cutter 259-448.8

	Item-No.	Description
		<b>TC-Cutting Wheels SILBERSCHNITT</b> tungsten carbide wheels suitable for cutting machines 11, 100/2 – 100/4, 115/2 – 115/4
	<b>265-2.135</b>	135 ° 5,0 mm Ø
	<b>265-2.144</b>	144 ° 5,0 mm Ø
	<b>265-2.150</b>	150 ° 5,0 mm Ø
		<b>TC-Cutting Wheels SILBERSCHNITT</b> tungsten carbide wheels suitable for cutting machines 115-3p, 115-3A+M, DIG, NC78
	<b>265-3.135</b>	135 ° 5,6 mm Ø
	<b>265-3.144</b>	144 ° 5,6 mm Ø
	<b>265-3.150</b>	150 ° 5,6 mm Ø
	<b>MMK-SWH/SV</b>	<b>Quick-Release Support</b> with axle for TC wheels 265-3...
	<b>MMK-HMA/SV</b>	Spare Axle
	<b>MMK-MTH/SV</b>	<b>Installation Aid</b> for quick-release support

	Item-No.	Description
		<b>Plastic Support</b> for cutting machines with 1 TC wheel 6,0 mm Ø
	<b>265-4.135</b>	135° white
	<b>265-4.144</b>	145° black
	<b>265-4.150</b>	150° brown
		<b>Plastic Support</b> for cutting machines with 1 TC wheel 6,0 mm Ø rough grinding for coated glass
	<b>265-7.135</b>	135° white
	<b>265-7.145</b>	145° black
	<b>265-7.150</b>	150° brown
		<b>Plastic Support</b> for cutting machines with 1 TC wheel 5,0 mm Ø
	<b>265-6.135</b>	135° white
	<b>265-6.140</b>	140° blue

	Item-No.	Description
	265-6.145	145° black
	265-6.150	150° brown
		<b>Plastic Support</b> for cutting machines with 1 TC wheel 5,0 mm Ø rough grinding for coated glass
	265-8.135	135° white
	265-8.145	145° black
	265-8.150	150° brown
	265-8.155	155°
	265-8.160	160° dark green
		<b>TC-Cutting Wheels ACTIVE SILBERSCHNITT</b> tungsten carbide wheels suitable for cutting machines NC-M, VSG-M2 6 x 3 1,6 mm
	270-3.128	128 °
	270-3.140	140 °
	270-3.145	145 °
	270-3.150	150 °
	270-3.152	152 °
	270-3.154	154 °

	Item-No.	Description
	MMK-SWH/FL	Quick-release support without axle for TC wheels 270-3...
	MMK-HMA/FL	Spare axle

	Item-No.	Description
	50	<b>Cutting Emulsion</b> not suitable for mirrors and coated glass
		plastic bottle with 1 l
	50-005	canister with 5 l
	50-010	canister with 10 l
	50-050	Poly-container with 60 l
	50-180	barrel with 200 l
	50-BES005	<b>Cutting Emulsion</b> for coated glass
		canister with 5 l
	50-BES022	canister with 30 l

	Item-No.	Description
		<b>Glass Thickness Measuring Tool</b> scale 1/10 mm
	66-10	<b>Scale range 10 mm</b> capacity 15 mm
	66-20	<b>Scale range 20 mm</b> capacity 50 mm
	66-30	<b>Scale range 30 mm</b> capacity 50 mm
	69-GO	<b>Glas-O-Meter</b> for optical measuring of the glass thickness in the built-in condition
	67/3PAN	<b>Spring Tape Measure PANORAMIC</b> plastic capsule – 13 mm wide inside dimension readable at the top 3,0 m long
	67/3ST	<b>Spring Tape Measure STANLEY</b> metal capsule – 13 mm wide 3,0 m long
	67/3.5	<b>Spring Tape Measure NICHOLSON</b> plastic capsule – 13 mm wide with locking lever 3,5 m long

	Item-No.	Description
	67/5F	<b>Spring Tape Measure VISTA</b> plastic capsule – 13 mm wide with locking lever 5 m long

	Item-No.	Description
	53	<b>Marking Tool</b> with tungsten carbide tip 145 mm long <b>steel handle</b>
	53-KU	<b>Marking Tool</b> with tungsten carbide tip 145 mm long <b>plastic handle</b>
		<b>Marking Chalk</b> for wet glass soluable for washing machines box à 12 pieces
	130-BLAU	colour: blue
	130-GELB	colour: yellow
	130-GRUEN	colour: green
	130-ROT	colour: red
	130-SCHW	colour: black
	130-WEISS	colour: white
	129	<b>Etching Ink</b> hydrofluoric acid in 250 g rubber bottle

<b>Return delivery</b>	<p>only with a copy of the invoice or the delivery note</p>

### § 1 General

- (1) The purchaser recognizes that the following business conditions are legally binding for all current and future goods and other services supplied by the seller. This applies in particular to the order issued. If the orderer is a full merchant, a legal entity of the public law or a special asset under public law, then this body proclaims agreement with these business conditions no later than when goods are accepted, the purchasing price is paid and details are clarified in any other way.
- (2) All agreements reached between the orderer and ourselves, in particular revisions to these sales and supply conditions and spoken subsidiary agreements covering the content of the contract, require our written agreement before they can become effective.

### § 2 Quotes and prices

- (1) Our quote and price lists are subject to change without notification. A supply obligation only comes into effect once a written order confirmation has been issued.
- (2) Our prices are net prices and do not include the statutory level of value-added-tax.
- (3) The prices are ex-factory (Lübeck) for unpackaged goods.

### § 3 Revisions to the agreed prices, payments and delayed payments

- (1) If the orderer is a full merchant, a legal entity of the public law or a special asset under public law, then we reserve the right to increase the agreed prices in accordance with increases in wages and/or material prices to which we are jointly subjected, provided that we have not already supplied the goods. The orderer must be informed of the price increase at least two weeks before the supply deadline. Should prices be increased, the orderer has the right to withdraw from the order within one week of being notified of this price increase.
- (2) Our invoices are to be paid within ten days from the invoice date for 2 % discount to apply or within thirty days to avoid a penalty. To benefit from the discount scheme, the orderer must have already settled all payment obligations outstanding from previous deliveries.
- (3) If we accept bills of exchange or cheques, we operate on the basis of cleared funds or, in the case of bills of exchange, on the basis of credit rating. The orderer is responsible for expenditure incurred as part of the discount scheme. We accept no liability for the correct submission of bills of exchange and cheques or for action over bills of exchange and cheques which fail to clear.
- (4) In instances of delayed payment, the orderer will have to pay interest amounting to the standard interest rate charged by the credit institute for overdraft facilities. This will however amount to at least 5 % more than the relevant discount rate of the Deutsche Bundesbank. We reserve the right to claim for further damages.
- (5) Should the orderer fall behind with payments, all other debts outstanding from the business relations become due, even those which cannot yet be paid.
- (6) Should the orderer raise any counterclaims, in particular those relating to complaints about the goods or to claims from credit notes for returned goods, right of retention is only permitted if counterclaims stem from the same contractual relationship.
- (7) Offsetting claims with disputed or non-legally valid counterclaims are not permitted. Regardless of this, the offsetting claim must be served in writing one month before the invoice amount is due.

### § 4 Dispatch and insurance

- (1) The orderer undertakes the risk associated with all shipments – including freight deliveries. This risk is transferred to the orderer when the goods are handed over

to the haulage contractor or freight carrier – or at the latest when the goods leave our plant.

- (2) Packaging will be invoiced at cost price in addition to the agreed price and cannot be returned. Orderers will only be credited with 2/3 of the invoiced packaging price for crates returned in perfect condition and by prepaid freight.
- (3) Unless otherwise informed, ten days after dispatch of the order confirmation, we will take out insurance with our transport insurer at the expense of the orderer for all kinds of custom-built glass tables and goods which are bulky and difficult to package. We will inform the orderer of the significance of the aforementioned deadline and the consequence of his not responding to the order confirmation. The premium is to be settled without any form of discount once the premium invoice is received. We do not however accept liability for correct and timely insurance cover being arranged.

### § 5 Supply deadlines and part deliveries

- (1) The supply deadlines specified in the order confirmation commence when the order confirmation is sent off. These cannot fall due before submission of the documents, authorizations, and approvals are obtained by the supplier or before an agreed sum has been received as payment.
- (2) The supply deadline is considered to be satisfied if the supply object has left the plant or has been declared ready for dispatch before the deadline expires.
- (3) Should unforeseen circumstances occur or should events take place which are out of our control, the supply deadlines are extended by the period for which the hindrance lasts, including an appropriate start-up period. Unforeseen circumstances include strikes, lockouts and unpredictable circumstances e.g. interruptions to operation and such which do not enable us to meet the deadlines despite reasonable efforts. This also applies if the aforementioned conditions affect sub-suppliers. We are committed to immediately informing the orderer if unforeseen circumstances have arisen. If the aforementioned delays in output persist for more than three months due to unforeseen circumstances, then both parties are entitled to withdraw from the contract.
- (4) Should, for reasons for which we alone are responsible, an agreed supply deadline not be observed, once an appropriate extension of at least four weeks has passed, the orderer is entitled to demand compensation for the delay in performance or to withdraw from the contract, provided that he indicated in writing that he would reject the service when imposing the extension.
- (5) The orderer may not refuse appropriate part deliveries.

### § 6 Trial deliveries

- (1) On request from the orderer, a delivery of tools, small machines and other devices can be made in accordance with a previously agreed deadline and including the return privilege. These goods are considered to be sold to the orderer at the specified price, if the orderer does not hand over the goods to the haulage contractor or freight carrier for dispatch within the return period or if he requests an extension to the deadline any time after four days before the deadline expires.
- (2) The orderer will bear all dispatch costs and is to return the goods undamaged by return cargo and to take out insurance for the goods against all transportation risks.
- (3) For deliveries worth up to DM 100,00, the orderer must pay a usage fee amounting to 10 % of the value of the goods and for deliveries worth more than the aforementioned value, the orderer shall pay a fee amounting to 5 % .

### § 7 Warranty

- (1) Complaints relating to identifiable faults or incomplete deliveries must be raised immediately or no later than three days after the goods have been received by the orderer.

Such complaints must always be raised before the goods are processed or installed and should be sent to us including precise information of the nature of the individual complaint. If complaints are not reported, we will assume that the goods were received in perfect condition. Faults which are not identifiable or those which only appear during the warranty period should be reported immediately and in writing.

- (2) On request, we shall be given the opportunity on site to determine whether the accused fault is valid or to have this task undertaken by one of our representatives.
- (3) We will correct valid complaints in good time and in the correct manner. We will decide whether this should take the form of correcting the fault (if necessary, also in conjunction with the relevant assembly services) or supplying spare parts.  
The orderer does, however, reserve the right to decide whether to demand a reduction in payment or to back out of the contract should we not be able to rectify the fault, whether this be as a result of unjust refusal or three attempts having been made to improve the situation or should a delivery of spare parts still not have rectified the fault.
- (4) Additional claims from the orderer, in particular claims for compensation are restricted in accordance with § 8 or cannot be lodged at all.

### § 8 Liability

- (1) In all instances where we are committed to pay compensation in damages as a result of contractual or legal grounds for claims and these instances are not covered by the above conditions, we only assume liability provided that our managerial level staff or people appointed by us can be held responsible for having acted deliberately or with gross negligence.  
If the orderer is a full merchant, a legal entity of the public law, or a special asset under public law over and above this, we will only assume liability for people appointed by us who are not managerial level in instances where they have acted deliberately. For cases of gross negligence we will only assume liability if this results in the infringement of our main obligations.
- (2) When dealing with full merchants, legal entities of the public law or special assets under public law, our liability is restricted to DM 500.000 for each instances of damage. The maximum amount of liability payable for individuals is DM 250.000.
- (3) If, an instance where our liability is restricted, as specified above, and a claim is lodged against us by a third party and this exceeds the aforementioned limits, the orderer must indemnify us from all claims for which we could not have been liable to the orderer and his staff in accordance with the aforementioned conditions.
- (4) The above claims for damages lapse three years after the damage has occurred at the latest.
- (5) The above liability exclusions and restrictions on liability do not apply for any claims for compensation in damages raised against us due to an absence of assured characteristics. The assurance of certain characteristics of the supply object must be included in writing in the order confirmation. This assurance does not cover the risk of secondary damage resulting from defects, provided that we, our managerial level staff or people appointed by us have not acted deliberately or with gross negligence.

### § 9 Advice and intellectual property rights

- (1) If we advise the orderer, this takes place without our incurring a legal obligation.
- (2) Quotes and drawings with which we provide the orderer, must not be disseminated to third parties, and especially not to competing companies.

### § 10 Retention of ownership

- (1) Supplied goods continue to remain our property (conditional commodity) until the orderer has paid off all his outstanding debts liable to us. In instances where outstanding debts due to us or counterclaims raised by the orderer are covered by an overdraft or credit facility, retention of ownership continues to apply until the relevant balance of outstanding debts has been cleared.
- (2) The orderer is authorized to use the conditional commodities. We can, however, revoke this authorization and request that the conditional commodity be returned as soon as the orderer does not comply with his payment obligations or does not do so on time. This also applies if one of the reasons for which our claims are prematurely lodged against the orderer arises and do so in accordance with the specifications laid down in this regulation. If retention of ownership is pursued, such action is considered as withdrawal from the contract.
- (3) Furthermore, the orderer is entitled to sell his retention of ownership in accordance with correct business procedures. Before doing so, he transfers the claims resulting from the sale of the retention of ownership from us to the purchaser. We take on preliminary cession. Item (2) applies accordingly.
- (4) If the value of the above covers exceeds the value of the claim to be covered by 20 %, then we are obliged, on request from the orderer, to free up deliveries of goods for which full payment has been received and we are free to chose the deliveries concerned.
- (5) If the orderer does not comply with his payment obligations or does not satisfy his commitments to us resulting from the retention of ownership, if a bill of exchange or a cheque is not cashed, if he does not make payments or if judicial or out-of-court conciliation procedure or bankruptcy proceedings are opened against his assets, then all of the orderer's debt due to us becomes liable immediately, even if we have agreed upon payment by instalments or if bills of exchange are post-dated. We are then entitled to sell by private contract the conditional commodities which we repossess regardless of payment obligations. Our rights, as specified in § 326 of the BGB (German Criminal Code) are not affected by this. Furthermore, we can withdraw from other as yet unfulfilled contracts with the same orderer irrespective of more extensive rights contained therein.
- (6) With regard to claims arising from the retention of ownership or deferred payments, the orderer cannot appeal that he needs the conditional commodity for special reasons, e.g. to maintain his business.

### § 11 Site of fulfilment and court of jurisdiction

- (1) If the orderer is a full merchant, a legal entity of the public law, or a special asset under public law, then in all disputes arising from the contractual relationship, legal proceedings should be raised at the court responsible for the headquarters of the supplier or responsible for the regional office which handles deliveries. The supplier also has the right to institute proceedings at the orderer's headquarters.
- (2) The contractual relationship is subject to the law of the Federal Republic of Germany. The Standard German Law governing the international sale of non-real estate property, dated 17 July 1973 cannot be applied.

April 1991  
PANNKOKE  
Flachglastechnik GmbH

Description	Item-No.	Group		Page
3-point-pliers	81-20	5	Glass breaking pliers	4
Abrasive pencil	809	8/9	Accessories for small-size machines	1
Abrasive stone	629	8/9	Drilling of glass	8
Additional plate for profile glass cutting angle	389-ZP	7	Glass cutting equipment	4
Apron for setting blocks	244	5	Work protection	2
Arm protectors	556	5	Work protection	1
Badger hair brush	161	10	for Glass painting	1
Block lever	555-KU	5	Glazing equipment	2
Block lever	555-HOLZ	5	Glazing equipment	3
Button suction cup	531	3	Suction handles	1
Carrying belt	559-803/H	3	Transport equipment	4
Case transporter	381-II/4	3	Transport equipment	1
Case transporter	381-II/8	3	Transport equipment	1
Castor roller	330	2		
Cavity pliers	77	5	Glass breaking pliers	1
Charger	823-Aufl.	8/9	Small size machines	3
Circle & oval cutter	233-10/40	7	Glass cutting equipment	7
Circle and oval cutting machine	232-20/120	7	Glass cutting equipment	6
Circle and oval cutting machine	232-20/120	10	Glass cutting equipment	3
Circle cutter	227	7	Glass cutting equipment	6
Circle cutter	228	7	Glass cutting equipment	6
Circle cutter	228	10	Glass cutting equipment	3
Circle cutting machine	230	7	Glass cutting equipment	5
Coating brush	163	10	for Glass painting	1
Cork distance pads	351	2		
Cork polishing belt	676	8/9	Small size machines	3
Cork polishing belt	677	8/9	Small size machines	4
Corner shoe	373	3	Transport equipment	4
Counter sink diamond	137-0/35	8/9	Drilling of glass	7
Cutting and break-out bar	390	7	Glass cutting equipment	3
Cutting and break-out bar	390	10	Glass cutting equipment	2

Description	Item-No.	Group		Page
Cutting blade for compass saw	815 / 816	8/9	Accessories for small-size machines	1
Cutting emulsion	50	7	Cutting emulsion	1
Cutting emulsion	50-BES	7	Cutting emulsion	1
Cutting slide Pannkoke	138	7	Glass cutting equipment	1
Cutting slide Pannkoke	138	10	Glass cutting equipment	1
Diamond drill	136	8/9	Drilling of glass	5
Diamond saw blade	823-ES	8/9	Small size machines	2
Diamond saw blade	823-ES	8/9	Accessories for small-size machines	1
Diamond scribing tool	54	7	for Marking	1
Diamond scribing tool	54	10	for Marking	1
Diamond segments	134	8/9	Drilling of glass	3
Double grip belt	565	3	Transport equipment	3
Double hand smoother	251	5	Work protection 2	1
Double-bladed pattern knife	122	10	for Art glazing	1
Drill adapter R ½"	132-10	8/9	Drilling of glass	1
Drill powder	672	8/9	Drilling of glass	7
Drilling stand	651	8/9	Drilling of glass	1
Drilling stand	651-FUSS	8/9	Drilling of glass	2
Etching ink	129	7	for Marking	2
Etching ink	129	10	for Marking	1
Extension	232-VL	7	Glass cutting equipment	7
Extension	232-VL	10	Glass cutting equipment	3
flexible suction handle	535	3	Suction handles	2
GeRO Glass hand carrier, movable	374/GERO50	3	Transport equipment	2
Glas-O-Meter	69-GO	7	Measuring tools	1
Glas-O-Meter	69-GO	10	Measuring tools	1
Glass breaking pliers	200/4	5	Glass breaking pliers	3
Glass breaking pliers	716	5	Glass breaking pliers	3
Glass breaking pliers	81	5	Glass breaking pliers	4
Glass breaking pliers "CLAMP"	80	5	Glass breaking pliers	1

Description	Item-No.	Group		Page
Glass breaking pliers- straight bit of tongs	200/.../2	5	Glass breaking pliers	3
Glass carrying gloves	411-10	5	Work protection	2
Glass carrying gloves	411-ST	5	Work protection	2
Glass cutter	61-100	7	Glass cutter	1
Glass cutter	61-100	10	Glass cutter	1
Glass cutter HOBBY LONGLIFE	52-424	7	Glass cutter	1

Glass hand carrier doppelseitig	374/D50	3	Transport equipment	2
Glass hand carrier einseitig	374/IE	3	Transport equipment	2
Glass Offloading Frame	601/5	2		
Glass Offloading Frame	601-BAND	2		
Glass Offloading Frame	607	2		
Glass pincing pliers	90	5	Glass breaking pliers	2
Glass pincing pliers	90	10	Glass breaking pliers	2
Glass Rack	482L	2		
Glass run pliers	716	10	Glass breaking pliers	2
Glass scraper	34	5	Glass scraper	2
Glass thickness measuring tool	66	7	Measuring tools	1
Glass thickness measuring tool	66	10	Measuring tools	1
Glass tong	497	5	Glass breaking pliers	4
Glazier Table	432	2		
Gloss-paint for edges	664	8/9	for polishing	1
GREIF-ZU Suction lifter 1-point	386/1	3	Suction handles	1
GREIF-ZU Suction lifter 2-point	386/2	3	Suction handles	1
GREIF-ZU Suction lifter 3-point	386/3	3	Suction handles	1
Grinding belt	670	8/9	Small size machines	3
Grinding belt	671	8/9	Small size machines	4
Grinding disk	444-ES	8/9	Accessories for small-size machines	2
Grinding disk	442-ES	8/9	Accessories for small-size machines	2
Grinding disk	442-V/ES	8/9	Accessories for small-size machines	2

Description	Item-No.	Group		Page
Grinding file MAKITA	803	8/9	Small size machines	4
Grozing pliers	85	10	Glass breaking pliers	1
Grozing pliers	85-200/11	10	Glass breaking pliers	1
Grozing pliers	88	10	Glass breaking pliers	1
Hacking knife	21	5	Hacking knives etc.	1
Hacking knife DON CARLOS	25	5	Hacking knives etc.	1
Hacking knife DON CARLOS	25-G	5	Hacking knives etc.	1
Hand belt	567	3	Transport equipment	3
Hand rubbing stone	252	5	Work protection	1
Handlap	410-1.6	3	Transport equipment	5
Handlap	410-1.6	5	Work protection	1
Handlappen – Meterware	410-1.6LFM	5	Work protection	1
HM Glass cutter	64-400	7	Glass cutter	2
HM Glass cutter	64-400	10	Glass cutter	2
Holder for blades	35	5	Glass scraper	1
Installation aid	MMK-MTH/SV	7	Cutting wheels	2
KaHa-pins		5	Glazing equipment	1
Lath scissors LOEWE	367	5	Glazing equipment	1
Lead burnisher	118	10	for Art glazing	1
Lead hammer	28	10	for Art glazing	2
Lead knife DON CARLOS	101	10	for Art glazing	1
Lead knife DON CARLOS	503	10	for Art glazing	1
Lead nails	119	10	for Art glazing	3
Lead stretcher	445	10	for Art glazing	2
Leather apron – half size	246	5	Work protection	3
Lift-off suction cup	538	3	Suction handles	1
Manual grinding machine MAKITA	802	8/9	Small size machines	3
Marking chalk	130	7	for Marking	1
Marking tool	53	7	for Marking	1
Marking tool	53-KU	7	for Marking	1
Marking tool	53	10	for Marking	1

Description	Item-No.	Group		Page
Marking tool	53-KU	10	for Marking	1
MICRO-Glass cutter	61-2004	7	Glass cutter	2
MICRO-Glass cutter	61-2004	10	Glass cutter	2
Mini diamond circular saw with accumulator	823	8/9	Small size machines	2
Nipple joint	132	8/9	Drilling of glass	1
Off-set glass pliers	83	5	Glass breaking pliers	1
Oil-Glass cutter	259-447.8	7	Glass cutter	3
Oil-Glass cutter	261-448.8	7	Glass cutter	3
Oil-Glass cutter	259-447.8	10	Glass cutter	
Oil-Glass cutter	261-448.8	10	Glass cutter	3
Optical glass measuring gauge	69	7	Measuring tools	1
Optical glass measuring gauge	69	10	Measuring tools	1
PALUE 3-point pliers	81	10	Glass breaking pliers	1
Parallel cutting frame	155	7	Glass cutting equipment	2
Parallel jaws	85	5	Glass breaking pliers	1
Parallel jaws	85-200/11	5	Glass breaking pliers	1
Parallel jaws	88	5	Glass breaking pliers	2
Parashute belt	378-AFG	5	Work protection	2
Pattern shears	120	10	for Art glazing	2
Pin hammer	47	5	Glazing equipment	1
Plastic glazier's square	205	7	Glass cutting equipment	2
Plastic glazier's square	205-ST	7	Glass cutting equipment	3
Plastic glazier's square	205	10	Glass cutting equipment	2
Plastic putty scraper	568	5	Glazing equipment	3
Plastic support	265.4	7	Cutting wheels	2
Plastic support	265-7	7	Cutting wheels	3
Plastic support	265-6	7	Cutting wheels	4
Plastic support	265-8	7	Cutting wheels	5
Plate glass carriage	496	3	Transport equipment	1
Pneumatic edge decoating equipment	444	8/9	Small size machines	1
Polishing brush	750h	10	for Art glazing	3
Polishing powder CERITE 419	674	8/9	for polishing	1

Description	Item-No.	Group		Page
Power-Grip	284	3	Safety suction handles	2
Power-Grip	284-KU	3	Safety suction handles	3
Profile glass cutting angle	398	7	Glass cutting equipment	4
Pulling suction cup	530	3	Suction handles	2
Putty knives bent, high polished, continuous blunt blade	6	5	Putty knives	1
Putty knives blunt, bent, continuous blade	0/18	5	Putty knives	1
Putty knives DON CARLOS - with rip	16	5	Putty knives	2
Putty knives DON CARLOS - without rip	15	5	Putty knives	2
Putty knives pointed blade	3	5	Putty knives	1
Putty knives pointed blade	10	5	Putty knives	2
Putty knives Swedish Design bevelled, continuous blade	12	5	Putty knives	2
Putty knives SWISS DESIGN	8	5	Putty knives	1
Putty remover	553	5	Hacking knives etc.	2
